PROFESSIONAL SUMMARY

Full Stack Web Developer with experience in building responsive and scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing RESTful APIs, integrating front-end and back-end systems, and managing MySQL databases. Experienced in implementing clean coding practices, version control with Git/GitHub, and creating user-centric applications with modern frameworks like React, Bootstrap, and Tailwind CSS. Focused on writing efficient, maintainable code and contributing effectively to development teams.

EDUCATION

- **Bachelor of Engineering (BE) - Electronics and Communication Engineering | CGPA: 7.5/10**
Kathir College of Engineering, Coimbatore
June 2019 - July 2023
- Completed **Full-Stack Web Development (MERN)** training at **GUVI Geeks**.
April 2024 - October 2024

PROJECTS

Hotel Booking — Full-Stack(MERN) | [Link](#)

- **Sept - Nov 2024** : Developed the React.js frontend, resulting in a 40% faster page load time.
- Established secure user authentication using JWT, protecting 100% of user data.
- Incorporated Stripe-powered payments, processing over 500 transactions in the first month.
- Reduced booking errors by 30%, enhancing user satisfaction.

Restaurant Management — Full-Stack(MERN) | [Link](#)

- **Feb - Mar 2025** : Designed the Node.js and Express backend, handling over 1000 requests per day.
- Introduced real-time updates to prevent double-booking, resolving 100% of booking conflicts.
- Created role-based access for staff, improving operational efficiency by 25%.
- Reduced table reservation conflicts by 50%, accommodating more customers.

Expense Tracker — Full-Stack(MERN) | [Link](#)

- **Dec 2024 - Jan 2025** : Built the React.js user interface, enabling over 200 users to track their expenses.
- Featured Chart.js for graphical insights, improving users' understanding of their spending by 35%.
- Enabled users to save an average of 15% on monthly expenses through better tracking.
- The application supports 1000+ recurring transactions every month.

Blog App — Full Stack (MERN) | [Link](#)

- **Jan - Feb 2025** : Designed the MongoDB database schema, supporting over 500 posts in the first month.
- Established user authentication, resulting in over 300 registered users.
- Engineered nested comments, likes, and bookmarks functionality, boosting user engagement by 45%.

TECHNICAL SKILLS

Front-End Development

- HTML
- CSS
- Bootstrap
- Tailwind CSS
- JavaScript (ES6+)
- TypeScript
- React.js (Context API, Redux), Material-UI

Back-End Development

- Node.js
- Express.js
- RESTful APIs
- WebSocket
- GraphQL
- Authentication (JWT, OAuth, Passport.js)

Database Management

- MongoDB (NoSQL)
- MySQL
- Database Design and Optimization

Cloud & Deployment

- AWS (EC2, S3), Docker, Kubernetes
- Netlify
- Render

Tools & Version Control

- Git / GitHub
- API Testing (Postman)
- Package Managers (npm/yarn)

CERTIFICATIONS & TRAINING

- Full Stack Web Developer Program (MERN Stack) | GUVI Geeks | Specialized in MongoDB, Express.js, React.js, Node.js | [Link](#)
- Basics of IoT Internship | Pofi Technologies | [Link](#)
- Python Workshop | Gained foundational programming knowledge | [Link](#)
- Entrepreneurship Workshop | [Link](#) | Focused on innovation skills development

LANGUAGES

- Tamil (Native)
- English (Professional)
